COURSE PROJECT: Creative Concepts in Watercolour

The aim of this course is to develop solid watercolour skills whilst looking at the practice and themes of contemporary as well as traditional artists. The course will look in further detail at 2 artists during each module and encourage students to adopt a creative thinking practice with their own work. The artists referenced are William Tillyer and Rebecca Hind, and the course will allow you to become familiar with their conceptual influence and how they can inform your own work.

An inherent feature of watercolour is translucency and freshness. You will develop a good understanding of colour theory by applying glazing methods and by overlaying washes. This exciting course provides you with an element of art historical reference whilst learning watercolour skills. This course is suitable for those with a little watercolour experience as well as intermediate/advanced students.

CORE SKILLS:

- Different ways of starting a painting referencing art history
- Selecting and developing ideas and a design for your work
- Drawing skills
- Understanding watercolour washes, wet in wet, glazing and dry brush work
- Tonal values and practical understanding of colour mixing
- Saving whites and masking

MATERIALS LIST:
