*A great workshop and the end results from the group were stunning – we all signed up immediately for more. I'd recommend Jackie whatever your level of skill or knowledge. **David Hartley***

*I'm buzzing from the most amazing workshop with Jackie on how to take great photos with your phone! I can't recommend the session highly enough, whether you take photos for work or pleasure. Time flew by and I can't wait to implement what I've learned. **Isobel Penny***

*Brilliant, I highly recommend it! ! Loved the structure and the artistic angle with the technical information. **Tina Southgate***
